OptimalPlus Intergrators Limited
YOUR NEED, OUR PASSION

INTEGRATING TECHNOLOGY.
EMPOWERING TOMORROW.

1 ICT TECHNOLOGY INFRASTRUCTURE

We design, supply, install and support end-to-end ICT infrastructure solutions that build secure, connected and intelligent environments for your business.

1 NETWORKING

Structured cabling (copper & fiber), network cabinets/racks, cable pathways (trunking, trays, conduits, floor pedestals) and active components including switches, routers, cyber security appliances, IP telephony systems and wireless access points.

2 PHYSICAL SECURITY

Supply and installation of IP CCTV cameras, access control (card & biometric readers, intercoms), fire alarm, intruder alarm, fire extinguishers & suppression, and parking & visitor management (boom barriers, bollards, gates, turnstiles, scanners, etc.).

3 BUILDING AUTOMATIONS / SMART HOMES

Supply, installation, commissioning and support of energy management, communication, fire systems, power back-up, automated gates, smart security, automation, automated curtains and gas leak detection.

4 INTERNET OF THINGS (IOT)

Factory automation, smart agriculture and sensors, environmental management systems, factory instrumentation for IoT readiness, people counting and sensing in malls and high traffic areas.

5 IDENTITY MANAGEMENT

Identity management solutions across manufacturing, healthcare, retail, transport & logistics, hospitality, public sector and utilities.

6 QUEUE MANAGEMENT SYSTEMS & AUDIO VISUAL SYSTEMS

Customer flow management, appointment scheduling, digital signage, LED displays, interactive boards, projectors, piped music and self-service kiosks.

7 PARKING & VISITOR MANAGEMENT

Boom barriers, bollards, automated gates and doors, turnstiles, visitor management systems and COVID-19 solutions.

8 GSM TECHNOLOGIES

Construction and maintenance of mast and base stations.

9 DATA CENTRES & SERVER ROOMS

Design and build, cabling, raised floor, cabinets, air conditioning, fire systems, security doors, environmental monitoring systems and power back-up solutions.

10 POWER BACK-UP SOLUTIONS

UPS systems and smart solar solutions for reliable and sustainable power.

11 CIVIL WORKS & CONSTRUCTION

ICT infrastructure construction, solar structures fabrication & installation, office partitioning & design and renovation works.

2 SOFTWARES / APPLICATIONS

We deliver innovative software solutions that automate processes, improve accuracy, and drive efficiency across various industries.

PETROL STATION AUTOMATION

Complete automation of fuel stations including fuel dispensing, tank monitoring, sales reporting and inventory management.

WAREHOUSE MANAGEMENT SYSTEM

Optimize inventory, storage, order processing and logistics with real-time visibility and accurate reporting.

HOSPITAL INFORMATION SYSTEMS (HIS)

Integrated hospital management solutions for patient registration, billing, appointments, pharmacy, lab and clinical workflows.

SCHOOL MANAGEMENT SYSTEM

Comprehensive school management covering admissions, academics, fees, attendance, communication and reporting.

CYLINDER TRACKING SYSTEMS

Real-time tracking and monitoring of gas cylinders to enhance safety, efficiency and regulatory compliance.

BULK SMS SOLUTIONS

Reliable and scalable bulk SMS platform for communication, alerts, notifications and marketing campaigns.

3 ADVISORY PRACTICES

Our advisory services help organizations make informed decisions, optimize systems and achieve sustainable growth.

IT CONSULTANCY

We provide expert advice and strategic guidance to align technology with your business goals and drive digital transformation.

IT AUDITS

Comprehensive assessments of your IT systems, policies and controls to identify gaps, risks and improvement opportunities.

PROJECT MANAGEMENT

End-to-end project management ensuring timely delivery, quality, budget control and stakeholder satisfaction.

KNOWLEDGE TRANSFER & TRAININGS

We empower your team with the skills and knowledge needed to maximize the value of deployed systems. Trainings of systems deployed.

ICT SYSTEM SUPPORT & MAINTENANCE (SLAs)

Reliable support and maintenance services with service level agreements that ensure business continuity and optimal performance.
